MEMBER OF THE ASSOCIATED PRESS.

VOLUME XXVI. THIRTEENTH YEAR.

TERMS: By Mail, \$3 a year; by carrier, 85 cents a month, or 20 cents a week. Sunday Times, 92 a year. Weekly, \$1.30; six months, 75 cents.

Sworn Net Average Circulation for Past Year, Over 13,000 Daily

Exceeding the net circulation of any other two Los Angeles daily papers.

Entered at the Los Angeles Postoffice for transmission as second-class mail matter.

AMUSEMENTS TONIGHT.

BURNBANK THEATRE—The Plunger.

The Times may be purchased in San Francisco at the Baldwin and Occidental Hotel news stands. Price 5 cents only.

LOS ANGELES ILLUSTRATED.

A new work to be entitled "Los Angeles Illustrated" is now being brought to the notice of our citizens by property-authorized canvassers, who are provided with written credentials signed

THE TIMES-MIRROR CO.

MR. ESTEE'S SPEECH.

The full report of this important speech of the Republican standard-bearer, delivered at the Pavilion in Los Angeles on the night of the 8th of September, is now ready at this office. In a four-page sheet of The Times, containing, besides, much other timely political matter. Orders for any quantities below 10,000 copies will be filled at the rate of 2 cents per copy, or \$2 per hundred. A single order, or a number of combined orders, for 10,000 copies at one time, will be filled for \$100 cash. Postage and mailing extra, but at actual cost. We are filling a large order today. Circulate the document and enlighten the voters!

OUR SUMMER RESORTS.

In no direction has the development of Southern California been more marked during the past few years than in the growth of our summer resorts. It is true that those resorts have always possessed the same natural advantages, but until within a very short period man had never done anything to render them more accessible or convenient to the public than they were when first created. The man or the family who wished to enjoy a few weeks or months on the seashore or in the mountains had to make as many preparations for camping out as a prospector does when he goes to hunt for a mine. Tents, provisions and other supplies had to be carried along, as accommodations for travelers were few and far between. Tourist hotels were almost unknown, except where here and there some rough attempt in that line had been made near some spring of mineral water. This, of course, deterred a great many from making such trips, especially invalids and those who felt themselves unable to undergo much fatigue, so that the country section of Southern California for many years remained a terra incognita to most of those who took a flying trip to this section from the East.

What a change has taken place in this respect! The person who desires to spend a month in the country has now an embarrassing number of places to choose from, places which he can reach by rail or steamship within a few hours and without any fatigue. Among the seaside resorts there are Santa Barbara, Santa Monica, Redondo, Terminal Island, Catalina Island, San Pedro, Long Beach, Newport, Laguna, Arch Beach, San Juan, Oceanside, Carlsbad, Del Mar, Coronado, and a dozen others. There is scarcely one of these resorts that has not made marked improvements during the past twelve months. Santa Barbara has added a beautiful ocean boulevard to her many attractions; Redondo has increased the accommodations for visitors on the beach; Santa Monica has erected one of the finest pavilions and swimming baths on the coast; Terminal Island has taken its place among the popular resorts of the county; San Pedro has braced itself up and entered the race for attractiveness as a pleasure resort as well as a busy port; Catalina Island has built mountain roads and increased its hotel facilities, so that it is now able to accommodate comfortably several thousand people at a time, which it has done during the past season; Long Beach has built a solid wharf, which is much appreciated by pleasure-seekers as well as by shippers, and other seaside resorts have all done their share in offering inducements to visitors to tarry a little longer in Southern California, as well as furnishing relaxation during the summer months to our own people.

It is, however, not only at the seaside that improvements of this description have been made. The picturesque mountain regions of Southern California, with their giant peaks, and firs, and junipers and crystal streams, have been made accessible at a dozen points to those who are unable to endure the fatigue of a rugged camping trip. The most notable improvement in this direction has been the building of the cable railway up Echo Mountain, which is shortly to be extended to the summit of the highest point in the Sierra Madre. The trail to that old and popular mountain resort, Wilson's Peak, has been widened and made so easy that even invalids can now make the trip in comfort. A fine wide wagon road

on a remarkably easy grade has been built up the Arrowhead Canyon, back of San Bernardino, to the pine timber at the summit of the mountain, where some old-fashioned log cabins have been erected. Thence mountain roads extend for miles; through the timber along the crest of the range. A little further south is Bear Valley, perhaps the most romantic and picturesque spot in the mountain region of Southern California. This may now be reached regularly by stage, and the accommodations for travelers have been much improved during the year. Strawberry Valley in Riverside county, is reached regularly by stage from the San Jacinto Valley, and has been crowded with visitors during the summer.

Besides these resorts, there are a number of mineral springs and baths scattered through Southern California, from Santa Barbara to San Diego, at which comfortable and in some cases luxurious hotels have been built, most of which have been well patronized during the past year. All this, however, has been but a beginning in this direction. The true development of Southern California as a resort for health and pleasure-seekers from all parts of the world has but just commenced. Let the work go on until Southern California can rival Switzerland and the Mediterranean in the comfort as well as the scenic and climatic attractions which it offers to visitors. Above all these countries we have the great advantage that Southern California is not merely a summer resort, or a winter resort, but an all-the-year-round resort.

BRECKINRIDGE'S CANVASS.

The Breckinridge campaign has been one of the most picturesque, and in many respects one of the most remarkable, political contests ever witnessed in a Congress district in this or any other country. On Breckinridge's side it was literally a fight for life. To him defeat meant political death, if not social ostracism. On the other side, pitted against his candidacy, was the moral sense of the community, which had been outraged by the astounding revelations of his moral tortuosity, and yet more grossly outraged by his effrontery in seeking a re-nomination in defiance of decency. The least that Col. Breckinridge could have done, had he entertained a due respect for public opinion, would have been to retire quietly from public life, and thus relieve his friends from the necessity for waging so unequal a battle in his behalf. His candidacy was a direct challenge to the moral sense, not only of his immediate section, but of the entire State of Kentucky. In announcing his candidacy he threw down the gauntlet of battle and defied the decent people of his district to take it up.

The challenge was promptly accepted, and the contest began. It proceeded with singular intensity from the start. Breckinridge is a shrewd tactician, an able organizer, an eloquent orator, and a man, without possession of strong individual magnetism, by the exercise of which he is enabled to attract an enthusiastic personal following. To his aid he brought all the forces he could command, including political organization of an exceptionally strong and thorough kind.

With these aids, under ordinary circumstances, he must certainly have won. But the circumstances were exceptional. The zeal with which he prosecuted his canvass inspired counter zeal among his opponents. As he appeared to be gaining strength, the determination that he should be defeated rose higher and stronger. Thus the fight went merrily on before the climax was reached.

But there was one source of opposition which Breckinridge had not estimated at its proper puissance. In his estimate of the elements opposed to him, he undervalued the influence of the women. There is no room to doubt that his canvass would have been triumphantly successful had it not been for this element of opposition. If the ladies could not vote they could influence those who could vote. They could also pray—and they have been praying against the colonel industriously ever since his campaign began. Whether their prayers alone would have defeated him is a debatable point. But they worked as well as prayed. They worked early and late, and canvassed every inch of ground. The result is, as it seems, a defeat for the hero of the Pollard episode.

There is talk that Mr. Breckinridge will contest the result. It is also intimated that some returns may be thrown out by the canvassing board, so as to give the nomination to Breckinridge. But there is little chance that he could secure an election by such means. If he goes before the people in November, his defeat is morally certain. The Republicans

have a large vote in his district, and their candidate would receive the almost solid vote of his opponents, if such an expedient should be necessary to defeat him. If, therefore, he should at length be defeated at the polls may be regarded as morally certain.

Thus there seems to be but little chance that Col. Breckinridge will go back to Congress in any event. His defeat is a triumph of decency, of morality, and of right. His return to Congress would cast a stain, not only upon his district, but upon his State and upon Congress itself.

To the ladies of the Ashland District—whose efforts have brought about this desirable result—greeting!

A TARIFF-REFORM JOKE.

Senator Harris opened the Democratic campaign at Trenton, Tenn., on Saturday. The dispatches inform us that the Senator "was in his happiest mood," a statement which one can readily believe after reading his humorous remarks relative to the new sugar schedule. He is reported as saying that "the act of 1894, concerning sugar, is vastly better for the taxpayer than the McKinley act, as the 40 per cent. ad valorem tax is very much less than the bounty of two cents a pound; and one-eighth of one cent per pound on refined sugar is just a fourth of the protection the McKinley act gave to the refiner or the Sugar Trust."

Let us analyze the Senator's joke a little—for he can hardly expect such a statement to be taken seriously. The amount paid out of the treasury under the bounty clause of the McKinley act, during the past year, was about \$10,000,000. The new tariff imposes a duty of 40 per cent. ad valorem on imported raw sugar, with one-eighth of one cent additional per pound on refined sugar. Our total importations of sugar for the last fiscal year were 4,286,226,775 pounds, of which 58,230,242 pounds were of refined sugar. If our importations be the same for the current year, placing the value of raw sugar at 3 cents per pound, we should collect a total revenue, under the 40 per cent. ad valorem tax, of \$51,434,721.30. The differential duty of one-eighth of one cent per pound additional on 58,230,242 pounds of refined sugar would amount to \$72,757.53. Thus, on the basis of last year's importations, the total collections of duty under the new sugar schedule for the ensuing year—with raw sugar at 3 cents per pound—would be \$51,507,508.83.

Surely when Senator Harris tells us that a tax of \$51,507,508.83 per annum "is vastly better for the taxpayer" than a tax of \$10,000,000, he cannot expect us to receive the statement otherwise than as a tariff-reform joke—the product of one of his "happy moods." Regarded in that light, it is certainly uproariously funny. But the joke has a serious side, as the people will ascertain when they are called upon to pay 2 cents more per pound for their sugar under this "vastly better" law than they had to pay under the "infamous" McKinley act.

The free-trade editors protest that there is to be no "radical" revision of the tariff hereafter; that the Democratic programme, should that party remain in power, will be to revise the tariff piecemeal, making changes in this and that schedule, with a gradual approximation toward free trade, until, as one of them expresses it, "protection as a principle is finally eliminated and abolished." They finally eliminate and abolish, will not unwise business as did the tariff agitation of the past few months. As a matter of fact, however, if this plan were carried out the business of the nation would suffer almost or quite as seriously as it has in the agitation preceding the passage of the present law. There would be general uncertainty as to what the line of attack was to be, and all industries would suffer seriously through fear of destruction. But it will be a great many years before the Democratic party is again given a chance to "monkey" with the tariff. Even if the Democratic majority in the next Congress be not wiped out altogether, it will be so far reduced that further "tariff reform" will be impracticable.

The war-spirt runs high in Japan, as is evidenced by the telegraphed statement that ladies of rank are offering their services as nurses, and have even offered to raise a corps of female warriors. Japan seems to have the advantage thus far in the conflict, not only in the results actually attained in the field, but in the enthusiasm with which her people have entered into the war. It is doubtful, however, if Japanese enthusiasm can prevail against the vast numbers which China can put into the field. The struggle promises to be a prolonged one; and in proportion as it is prolonged, the chances of ultimate victory will incline toward China.

The unprompted murder of Rev. James Wylie by Chinese soldiers, as detailed in the dispatches, was a most brutal affair. The fact that the Chinese authorities have ordered the punishment of the perpetrators of this dastardly crime, and the payment of a money indemnity to the relatives of the deceased will not serve to undo the wrong or restore the victim to life. There is grave danger that other similar crimes may be committed, in the excited state of feeling which now exists in China, and our representatives there should be instructed to take extraordinary precautions for the protection of American citizens.

An esteemed scientific contemporary explains that "people wink because the eyes must be kept clean and moist, and by the action of the eyelids the fluid secreted by the glands of the eye is spread equally over the surface of the eyeball." This is all right, no doubt, from a strictly scientific point of view. But in Iowa and Kansas people often wink for other reasons. For instance, when they desire to procure certain secreted fluids to spread over the surface of their interior anatomy, sometimes called throwing themselves outside of a drink.

The Republican State Central Committee of Nevada, in an open letter to Senator Jones, requests that statesman to resign his seat in the United States Senate, to which he was elected by Republican votes. His term began March 4, 1891, and

the Republicans of Nevada claim that they are entitled to be represented in the Senate during the whole of that term, or until March 4, 1897. The main points of the letter are given in another column. It is a pointed and admirably written document, which Senator Jones can scarcely ignore. But it is doubtful if he will accept the invitation to resign his seat in the Senate. Mr. Jones is not built that way. If he could secure a "re-election," however, in the form of a re-election, at not too great an expense, he might perhaps be induced to consider the proposition.

The new law governing enlistments in the army provides that all recruits must be citizens of the United States, must be able to read, write, and speak the English language, and must be under thirty years of age. This is as it should be. The army should be increased to at least 100,000 men, and all of them, from the highest officer to the last private in the rear rank, should be American citizens in the fullest and truest sense. The first duty of the army is to defend the flag and uphold the authority of the government. To no hands but those of American citizens should this sacred duty be committed.

The coils are tightening about Li-Hung-Chang. In view of the great Japanese victory just reported, it is fair to presume that the Emperor of the Sun will deprive Li of some more of his clothes. And besides, as the telegraph has already informed us, the aged Viceroy has been commanded to "retire" the said Li in person, to the end that victory may be induced to perch on the celestial banners. This is indeed tough—to take a man's clothes away from him and then place him in the forefront of battle. Li is 74 years of age, too. The sorrows of Uriah, the Hittite, were no circumstance to his.

The savings of the people of the United States increased, during the thirty-two years of protection between 1860 and 1892, and \$4.75 per capita to \$24.93, for each man, woman and child in the country. Since Grover Cleveland was elected these savings, or a large proportion of them, have been used for living expenses.

"That Mr. Wilson will be returned to Congress to complete his work" does not admit of a doubt," observes the Wheeling Register. Possibly Mr. Wilson may be returned to Congress "to complete his work," but he is likely to find it very unbecoming, and to be obliged to do most of "his work" alone.

As noted in this morning's dispatches, extensive changes have been made in the location of the various divisions of the standard currency. The order has been executed for some time, and has been awaited with great interest in our circles.

Cleveland hasn't written any letters for nearly a month. He is too busy, fishing. It would be a good thing for Grover, for his party, and for the country, if some scheme could be devised to keep him fishing all the year round.

By a careful recount in one of the Arkansas districts it has been discovered that the Republicans have actually secured one member of the Senate. The Republican party in Arkansas is making encouraging progress.

St. Louis has a new \$3,000,000 ten-story hotel, of which she is even more proud than of her new railway depot, one of the largest and finest in the world. The Windy City will have to look to its laurels.

POLITICAL POINTS.

Miss Estelle Clayton is the first woman nominated for a State office in Wyoming. She is running for State Superintendent of Public Instruction.

The Democrats will have just nine votes on joint ballot in the next Legislature of New York, while the Republicans will have one. Here is a case where the question of "fusion" is not likely to be an issue. J. St. Louis Fasset gives it as his conviction that Levi P. Morton is already beaten for re-election, and that the Republicans in New York, but the latter say they have 450 votes for Morton that cannot possibly escape. It is barely possible that Mr. Fasset is not wholly disinterested.

(Chicago Times.) The House of Representatives will not agree to a joint debate with Mr. Gregg, his Populist opponent for re-election, because he says they both hold the same ground on all points, and that a debate would be a waste of time. Another case of "nothing to be said."

(Phoenix Herald.) The nomination of the Hon. O. Murphy by the Arizona Republicans, for delegate to Congress, is a logical and eminently proper thing to do, and a move that will carry success to the Arizona Republic. Murphy is a man of high character, and a man of high ability. There are few men in Arizona who can draw around them so many earnest and staunch supporters, or who will receive such a percentage of the popular vote. Hon. O. Murphy, as Secretary, Acting Governor and Governor of Arizona, made an enviable record, one that the people appreciate, and on account of which they will send him to Washington as our delegate to Congress by their votes on the 6th of November next.

AT THE PLAYHOUSES.

BURNBANK THEATRE.—The Higgins-Waldron Company opened the third week at this popular place of amusement to a large and enthusiastic house last night. In "The Plunger," a thrilling melodrama, through which runs a broad vein of humor, the company has presented a production which is fully equal to the standard which has hitherto been maintained by Manager Cooper, for it is well staged, the interest never flags, and although there are a few weak spots here and there, the performance as a whole is creditable to all who participate in it.

"The Plunger" will hold the boards for the remainder of the week.

LETTERS TO THE TIMES.

The Lottery Swindle.
 MONROVIA (Cal.) Sept. 17.—(To the Editor of The Times.) I believe you are entitled to more than a mere notice for yesterday's editorial in regard to the new lottery, though you spoke too late to save many a hard-earned dollar. Some people don't know a good thing when they see it. Yours truly, F. W. BURN.

Iowa Man in California.
 (Council Bluffs Nonpareil, Sept. 13.) The Iowa friends of Maj. Donnell, who remember him so well for his gallant fight in the Sixth District against Gen. Weaver, will rejoice to learn that he was nominated the other day for County Attorney of Los Angeles county, Cal., of which the city of Los Angeles is the county seat. That Maj. Donnell will be elected goes without saying, for the county is Republican; that he will make one of the most efficient, able and painstaking officials in the county has ever been chosen for this position is acknowledged by those who know Maj. Donnell and his ability. If the people of Los Angeles decide that a public ally exists in the justice tract, between Twenty-ninth and Thirtieth streets, parallel with Grand avenue, that the City Attorney present to the Council the proper ordinance, disclaiming all claims in the part of the

THE PUBLIC SERVICE

Regular Meeting of the City Council.

The Recommendation That the Salaries of Policemen Be Raised Is Adopted.

Dr. Wills Makes Complaint About the Lack of a Proper Water Supply on the Hills—The Courts.

The City Council, at yesterday's meeting, adopted the recommendation of the Police Commission to increase the salaries of police officers. No action was taken on the license ordinance matter, which has been pending for some time.

The usual law and motion calendars were disposed of by the Superior Judges at the Courthouse, and but little business outside of the routine order was transacted. Three opinions from the Supreme Court were received at the deputy clerk's office for filing.

AT THE CITY HALL.

The City Council.

THE SALARIES OF POLICEMEN WILL BE RAISED—ROUTINE MATTERS.

There was a full attendance at yesterday's meeting of the City Council. The City Clerk reported that in the matter of the improvement of Bailey street from Brooklyn avenue to State street, the Board of Public Works, in the proceedings and it was ordered that a new ordinance of intention be presented.

The clerk presented a new final ordinance for the grading and otherwise improving Third street, between Crocker and Alameda streets. Action was deferred for two weeks.

The clerk also reported that it would be in order to pass final ordinances for the following streets: Crocker street, between Third and Fourth streets; and Crocker street, between Third and Fourth streets.

Sewerage House street from a point 100 feet north of Sixth street to Pico street. Adopted.

Sidewalking Estrella avenue from Washington street to Twenty-first street. Action deferred.

Grading and otherwise improving Ingraham street from Wilmer street to Lucas avenue. Adopted.

SEWER MATTERS.

A communication from the Health Officer called attention to the sanitary necessity of constructing a sewer on Bellevue avenue from a point 200 feet east of Centennial avenue to Pearl street. Referred to the Sewer Committee.

The Sewer Committee submitted the following report: "We recommend that the petition from Thomas G. et al., in reference to the sewer on Hill street, between Seventh and Pico streets, be filed, as the final ordinance for said work will be presented at this session of the Council." Adopted.

"We recommend that the bid of J. E. White to sewer Main street between Washington and Jefferson streets, at 85 cents per lineal foot, for the sewer complete, including manholes, lampholes and flush-tanks, be accepted, and the necessary resolution of award adopted." Adopted.

"We recommend that the bid of J. E. White to sewer Twenty-third street from Main street to Los Angeles street, at 58 cents per lineal foot for sewer complete, including manholes, lampholes and flush-tanks, be accepted, and the necessary resolution of award adopted." Adopted.

"We recommend that the Street Superintendent be instructed to lower the sewer on Olive street, north of First street a sufficient amount to allow property-owners on the west side of said Olive street to connect therewith." Adopted.

The recommendation of the Police Commission that a certain rebate be allowed F. Kerkow on his July saloon license was adopted.

RESTAURANT LIQUOR LICENSES.

The communication from the Police Commission, stating that the motion of Mr. Teed, referred to that body, which motion was to instruct the City Attorney to amend the present ordinance so that restaurant liquor licenses cannot be granted for places for which saloon licenses have already been granted, was returned without recommendation, was read by the clerk.

Councilman Rhodes moved that the communication be filed and that the City Attorney be instructed to present an ordinance in accordance with the motion.

The motion was lost by a tie vote, Councilman Rhodes being out at the time. Councilman Rhodes moved that the ordinance be amended so that it shall read: "because a number of the saloon-keepers had been put to a good deal of expense in fitting up their places for operation under both licenses." He thought it would be unfair to them.

In explaining his vote against the motion Councilman Rhodes said that the Police Commission should first make a recommendation on the matter.

Councilman Munson explained his position in voting in favor of the motion by stating that he was and had been opposed to the operation of restaurant liquor licenses as at present if it had the effect of repealing or rendering void the Sunday-closing ordinance.

Councilman Rhodes said that he voted in favor of the motion because the present ordinance did not accomplish the object for which it was intended. The Police Commission, he said, had issued restaurant liquor licenses to nearly all of the saloons where requested. The ordinance served as a cloak under which to violate the Sunday-closing ordinance.

Councilman Rhodes said that he voted "no" on "general principles."

President Teed said that he would vote in favor of the motion because he meant to support it to the gallery. He did not believe the best saloons wanted restaurant liquor licenses. The vote resulted as follows: Rhodes, Munson, Fessell, Rhodes and Teed (4).

Nays—Campbell, Innes, Smith and Strohm (4).

The demands, as approved by the Finance Committee were allowed.

ZANJA IMPROVEMENTS.

The following was presented: "We, your Zanja Committee, in connection with the Councilmen from the Second and Third wards, to whom was referred specifications for a twenty-four inch wooden pipe line on Lake Shore avenue, between Second and Fremont avenues, would recommend that said specifications be adopted and the City Clerk instructed to advertise for bids on said specifications presented by the City Engineer; also, that the advertisement include a clause to the effect that bids will be received for a twenty-four inch steel pipe, No. 12 wall to be laid in accordance with the plan and profile in the office of the City Engineer." Adopted.

The City Engineer reported the following:

Ordinance of intention to grade, gravel and construct a gutter in the center of the alley running north from the north line of Seventh street, between Hill and Olive streets, to the south line of the alley running east and west in block 19, Ord. No. 10,000. Adopted.

Ordinance of intention to construct a cement walk six feet wide on the west side of Hope street, from the north line of Sixth street to the south line of the Normal School grounds. Laid over one week.

Ordinance of intention to grade, gravel and gutter Hinton avenue, from the prolonged south line of Alpine street to the west line of Hinton avenue, under specifications No. 5. Adopted.

Ordinance of intention to establish the grade of Railroad street, from Main street to its eastern terminus. Adopted.

Ordinance of intention to establish the grade of Williams street, from Main street to Olympia street. Adopted.

In the matter of the protest of H. M. Miles and others, against the sewerage contract between the City and the Western Sewer District No. 2, I find as follows: The total frontage in the district is 70712 feet. A majority would be 35356 feet. The petitioners (only six are in the district) represent 3228 feet, being 231 feet less than a majority. There are some signatures on the protest which represent property outside of the district, and they have not been considered. Hearing set for 2 p.m. next Monday.

In the matter of your instructions to present an ordinance for grading Main street, between Broadway and Ninth streets, under specifications No. 5, I beg leave to report that you have granted permission to property-owners to grade said street between Broadway and Ninth streets. Mr. Bottler, one of the property-owners, proposed to grade his portion (some four hundred feet) himself. He deposited with the City Engineer a plan of the street, showing the proposed grade, and he has complied with the requirements, we have given him the necessary grades. The balance of the property-owners have employed the City Engineer to grade their portions, having complied with the requirements, we have given him the grades also. I learn from the street department that, while Mr. Heston is grading his portion, Mr. Bottler has done nothing to finish his frontage, and I, therefore, respectfully ask for further instructions in the matter. Referred to the Board of Public Works.

Councilman Campbell moved that the contractor on Brooklyn avenue be granted fifteen days' additional time to complete contract. Adopted.

Councilman Munson moved that the City Water Company be directed to put in a fire hydrant at Lucas avenue and Fourth street. Adopted.

Councilman Rhodes moved to notify the City Water Company to lay a six-inch main between the lower reservoir at College and Pearl streets, on Hinton avenue and Seaview avenue, to the intersection of Bellevue avenue and Seaview avenue. Adopted.

Councilman Munson moved to instruct the same company to lay a larger main on Broadway street, between Broadway and Pico streets, and a better domestic supply. Adopted.

President Teed moved that Toberman street, which has just been graded up, be sprinkled with water, and that it be necessary to pack the loose earth in the street. Adopted.

Councilman Smith moved that the City Engineer be instructed to prepare plans and specifications for the repaving of Santa 5-1. Adopted.

On motion of Councilman Munson the Street Superintendent was directed to have the sweeping of Sixth street, between Pearl and Main streets, done continuously, without sweeping one side early in the evening and the other part late at night.

Councilman Fessell moved to instruct the City Attorney to report to the Council in what condition the water was being used on the street, and to have the street cleaned up. Referred to the Street Superintendent.

ABANDONS THE FRANCHISE.

A communication from Charles L. Strange said: "The undersigned respectfully represents to you that he, with other gentlemen of well-known standing in the city, incorporated a company for the purpose of building an electric railway from Los Angeles to Pasadena and Altadena, being such a route as they thought proper for the development of Pasadena; and their lands in particular."

"All parties who had previously undertaken this enterprise having failed, we expected no support; but our project became known and we had secured a portion of the right-of-way, and contracted for the construction of the road, the Consolidated Electric Railway Company of this city, realizing the effects of such a competing line, immediately began actual work on a line to Pasadena with materials already on hand, and we were not far as to convince us beyond a doubt that they will have in operation within a few months a fine three-mile road. Realizing that our road is superior to the travel, we have decided to discontinue all work in that line, cancel all contracts and forfeit all franchises and rights-of-way."

The communication was referred to the City Attorney.

A communication from the Old Fellows invited the Mayor and Council to be present at the ceremonies attending the laying of a corner-stone of their new building. The invitation was accepted.

PUBLIC WORKS.

The Board of Public Works submitted the following:

"In the matter of the motion of the member from the Ninth Ward, that the City Engineer be instructed to establish the grade of the intersection of Michigan avenue and Saratoga street, we recommend that the same be granted and the City Engineer instructed to present the necessary ordinance to conform to the contour of the land." Adopted.

"We recommend that the City Clerk be instructed to advertise for proposals for the extension of Pearl street, from the intersection of Michigan avenue and Saratoga street, we recommend that the same be granted and the City Engineer instructed to present the necessary ordinance to conform to the contour of the land." Adopted.

"We recommend that the City Clerk be instructed to advertise for proposals for the extension of Pearl street, from the intersection of Michigan avenue and Saratoga street, we recommend that the same be granted and the City Engineer instructed to present the necessary ordinance to conform to the contour of the land." Adopted.

President Teed moved to amend so as to include that portion of the city limits between Eighteenth and Figueroa streets and the city limits. He spoke of the numerous improved streets which would be greatly damaged if the arroyo was permitted to flood them, and the amendment was adopted. The section was adopted as thus amended.

STREET-SPRINKLING BREEZE.

A number of the people then interested in the question of street sprinkling appeared, and were heard regarding the various bids submitted. Mr. Keller, raised the question as to whether the street sprinkling was properly considered in making bids on the mileage. Capt. Cross urged the fact that his bid included the sprinkling of the parks. After a spirited discussion a recess was taken till 2 p.m.

Afternoon Session.
 The hearing on the protest of M. F. Y. Baker against the proposed widening of Buena Vista street, set for this time, was taken up and C. K. Holloway was heard in behalf of Mrs. Baker. The protest was denied.

MORE PUBLIC WORKS.

The Board of Public Works report, the reading of which was interrupted by the noon recess, was taken up again and read as follows:

city to the alley in question, as a public thoroughfare, and abandoning the same. Adopted.

ENGINEER'S REPORT.
 The City Engineer reported the following:

Ordinance of intention to grade, gravel and construct a gutter in the center of the alley running north from the north line of Seventh street, between Hill and Olive streets, to the south line of the alley running east and west in

THE PUBLIC SERVICE.

Continued from fourth page.

In arranging the details we will assist the clerk or other officer you may direct to distribute the funds." Board of Public Works.

"In the matter of the petition of John M. Warner, I recommend that the same be filed." Adopted.

POOR WATER SERVICE.

Dr. Le Moine Willis appeared and said he wished to file a statement regarding the fire which occurred a few hours before on the Port Hill tract. He said that he had complained repeatedly of the insufficient water supply in that neighborhood, and had not got satisfaction from the water company. The only supply of water for the houses there was from a two-inch main carrying a pressure from the lower reservoir only. When he had complained to the water company, Dr. Willis said, he had been told the pressure would be but little improved with a four-inch main.

While Mr. Banning's house was burning, Dr. Willis said, the members of the fire department, apparently unfamiliar with the location of the hydrants, lost a good deal of valuable time hunting for a place to connect with the water. After connection had been made there was no water, or practically none, to be thrown on the fire.

MORE MOTIONS.

Councilman Innes moved that the clerk notify the City Water Company to lay a large main on Rock street, between Castelar and Buena Vista streets. Adopted.

Councilman Innes moved to instruct the City Water Company to place a fire plug at Broadway and Rock street. Adopted.

On motion of the same gentleman the Chief of the fire department was instructed to report to the Council how many fire hydrants had been paid for by the city.

Councilman Campbell moved that the City Water Company lay a four-inch water main on Fourth street (Boyle Heights) so that a fire hydrant might be placed near there. Adopted.

SALARIES OF POLICEMEN.

Councilman Campbell moved that the report of the Police Commission regarding the increase of salaries of members of the police force be taken from the committee of the whole. He said that he favored increasing the salaries of the police officers. They took their lives in their hands and they should be given a greater compensation than one who had no experience and who was walking a beat for the first time. The Police Commission had, perhaps, duly considered the proposed schedule before making the recommendation, but not as he should have done. He observed that the Commissioners had said nothing in their report about keeping men on the force during good behavior. They make occasional filings at the Council, however, said Mr. Teed, referring to the statement by the Police Commission that the Councilmen were "paying to the galleries," but they appeared to overlook the taking of any steps toward placing the department on a basis where officers could be retained only for cause.

The motion to take from the committee of the whole was carried and then, on motion, the report of the Police Commission recommending certain increases, was adopted and the City Attorney was instructed to present an ordinance providing therefor.

The vote on the adoption was as follows: Yeas—Messrs. Campbell, Munson, Pessell, Rhodes, Smith and Strohm (6).

Nays—Messrs. Teed and Teed (2).

The salaries paid under the schedule at present in force are as follows:

Captain, \$90 per month; sergeants, \$75 per month; mounted men, \$80 per month; drivers of patrol, \$70 per month; patrolmen, \$70 per month; matron, \$50 per month.

The new schedule is as follows, the amount stated in each case being the monthly salary: Captain, \$125; sergeants, \$90; detectives, \$100; secretary, \$90; bullfinch, \$80; clerks, \$90; jailers, \$80; patrol drivers, \$85; 1st, 2nd, 3rd, 4th, 5th, 6th, 7th, 8th, 9th, 10th, 11th, 12th, 13th, 14th, 15th, 16th, 17th, 18th, 19th, 20th, 21st, 22nd, 23rd, 24th, 25th, 26th, 27th, 28th, 29th, 30th, 31st, 32nd, 33rd, 34th, 35th, 36th, 37th, 38th, 39th, 40th, 41st, 42nd, 43rd, 44th, 45th, 46th, 47th, 48th, 49th, 50th, 51st, 52nd, 53rd, 54th, 55th, 56th, 57th, 58th, 59th, 60th, 61st, 62nd, 63rd,
